

Kiwifruit Seed

Kiwifruit Seeds are extracted from the flesh of the kiwifruit (*Actinidia chinensis*). As a specialty Oilseed, Kiwifruit Seeds are commonly used pressed for Kiwifruit Seed Oil.

It contains Alpha Linolenic Acid (Omega 3, ALA) which is an Essential Fatty Acid that our body is unable to produce and should therefore be present in our diet for the maintenance of good health. Kiwifruit Seed Oil is ideally suited for skin and hair care products as the high concentration of ALA helps to maintain moisture. It is a classic anti ageing product and an important ingredient in dermatitis formulations. It combines with protein and cholesterol to form living membranes that hold the body cells together. Kiwifruit Seed provides a natural source of energy and helps to maintain resilience and lubrication of all cells.

Technical Data

Product Name: Kiwifruit Seed

Botanical Name: *Actinidia chinensis*

Food Safety: This product has been produced in accordance with HACCP principles.

Shelf life: If stored in unopened containers at less than 20°C, this product can expect to have a shelf life of 12 months. Once opened the shelf life is limited by temperature, light and oxygen exposure. Any remaining oil should be blanketed with Nitrogen and used as soon as possible.

GM Status: Produced in a GM free production process

Certifications available: HACCP. Kosher and Halal available on request.

Product Variations:

- Kiwifruit Seed
