

Maple Peas

Maple Peas are brown mature peas that have been allowed to dry out naturally in the field, rather than be harvested whilst still young like the normal garden pea.

Maple Peas are the optimum choice for salad sprouts. With a high protein and fibre content per 100g, it increase the nutritional profile of products.

There is a growing consumer awareness on what constitutes as a 'better for you' sustainable product. Maple Peas allow food processors to tap into growing consumer trends.

Technical Data

Product Name: Maple Peas
