

Flaxseed Oil

Flaxseed Oil is one of nature's most concentrated forms of Alpha Linolenic Acid (Omega 3). The Omega 3 content of the Flaxseed Oil makes it a very popular dietary supplement.

Alpha Linolenic Acid is an essential fatty acid that our body is unable to produce and should therefore be present in our diet for the maintenance of good health. Current food trends have resulted in a depletion of available Omega 3 in our diets. Adding Flaxseed Oil to our daily food intake through a variety of recipes or simply as a dietary supplement, rebalances this deficiency.
