

# Macadamia Nut Oil

Macadamia Nut Oil is derived from the edible kernel of the Macadamia Nut (*Macadamia integrifolia*). This oil has one of the highest levels of monounsaturated fatty acids, greater than both Olive and Canola Oil.

It is low in bad saturated fats and comparatively low in polyunsaturated fats thus its suitability as a high temperature cooking oil. Overall it is a very nutritious oil that promotes good health, longevity and a reduction in degenerative diseases.

Macadamia Nut Oil contains a naturally occurring skin lipid making it an excellent skincare product. Macadamia Nut Oil replenishes the skin's naturally occurring lipids which deplete with age. It has also been used as a healing oil for scars, sunburns, minor wounds and other irritations. Reputed as the best carrier oil available, Macadamia Nut Oil's versatile qualities make it ideal for use in anti ageing, aromatherapy and mother and baby skin care formulations.
