

Meadowfoam Oil

Meadowfoam Oil is Cold Pressed from the seeds of *Limnanthes alba*.

It is unique to other oils in that it contains more than 95% Long Chain Fatty Acids and these unique fatty acids make Meadowfoam Oil particularly stable and resistant to oxidation and deterioration. As a result, it is a key ingredient for extending the shelf life of skincare products.

Meadowfoam Oil is a sought after ingredient due to its ability to retain moisture on the skin. It is widely used in skin and hair care applications because it is moisturising, extremely stable, and capable of adhering to and staying on the skin. When applied to the skin, it forms a moisture barrier which proves invaluable in these products. Meadowfoam Oil is also currently being studied for pharmaceutical and industrial use.

Technical Data

Product Name: Meadowfoam Oil

Botanical Name: *Limnanthes alba*

Food Safety: This product has been produced in accordance with HACCP principles.

Active Ingredient(s): Long Chain Fatty Acids (>C20).

Extraction Method: Cold Pressed

Shelf life: If stored in unopened containers at less than 20°C, this product can expect to have a shelf life of 12 months. Once opened the shelf life is limited by temperature, light and oxygen exposure. Any remaining oil should be blanketed with Nitrogen and used as soon as possible.

Common Dosage: Skincare Formulations and/or Hair Care Products.

GM Status: Produced in a GM free production process.

Certifications available: HACCP. Kosher and Halal available on request.

Product Variations:

- Meadowfoam Oil Refined
