

Clover Honey

New Zealand honeybees forage the countryside to produce clover honey.

This is New Zealand's most popular household table honey. Clover flowers have a strong history within New Zealand's agricultural industry to heal and restore soil. This luscious pasture grows in abundance across the flat and green meadows of the Canterbury Plains. Cover honey has a mild and subtle taste with a light silky finish. New Zealand is known to produce the best creamed clover honey in the world.

Chemical and Physical Properties

Filtration	150 microns
Hydroxymethylfurfural	<40mg/kg
Tutin	<0.70g/kg
Moisture	<20%
Glucose and Fructose*	>60g/100g
