

Kāmahi Honey

Kāmahi honey is produced from the stunning white bottle brush flower of the Kāmahi tree.

Bees collect pollen to produce an intense and complex flavour with glorious after tones. Most of kāmahi honey is produced in the beautiful native forest canopies of the West Coast in the South Island. Here the New Zealand native Kāmahi trees grow in abundance.

Chemical and Physical Properties

Filtration	150 microns
Hydroxymethylfurfural	<40mg/kg
Tutin	<0.70g/kg
Moisture	<20%
Glucose and Fructose*	>60g/100g
